# From Coverage to Care: Helping the Newly Insured Understand Their Coverage

*“Working to Achieve Health Equity”*

# What is *From Coverage to Care*?

- C2C is an effort to help educate consumers about their new coverage and to connect them with primary care and preventive services that are right for them so they can live long, healthy lives.
- Resources online and in print include the Roadmap, Discussion Guide, videos, and more.
- C2C builds on existing networks of community partners to educate and empower newly covered individuals.

# *Why From Coverage to Care?*

- Millions of Americans gained coverage through the Marketplace and Medicaid and CHIP during open enrollment, and this year more than 500,000 uninsured 64-year olds will become eligible for Medicare.
- For many, this is the first time in a long time or they have ever had coverage.
- Unless we connect the newly insured to primary care and preventive services, we will not realize the other goals of the ACA – improving population health and reducing health care costs.
