Looking Ahead to 2023

MDI began work on several projects that will be completed and released in 2023.

- **Toward a National Standard for Service Intensity Assessment and Planning for Mental Health Care** – A report that aims to align care providers to a single model, such as the LOCUS Family of Tools, to standardize determinations of severity and course of treatment.
- **Mass Violence in America: Causes, Impacts and Solutions** – Update of the popular 2019 report to reflect the newest information and research pertaining to mass violence in America.
- **Measurement-informed Care** – An issue brief outlining the MDI’s recommended outpatient measurements.
- **Quality Measurement in Crisis Services** – An innovative new report providing a brief framework of optimal metrics to lead the mental health field in enhancing the quality of crisis systems nationally.
- **DEI Video Series** – Additional interviews were filmed for release in 2023.
- **MDI and Certified Community Behavioral Health Clinics (CCBHC) ECHO** – Planning and recruitment in progress for the learning collaborative launching in April 2023.
